8. Before commencing proceedings or allowing proceedings to be commenced against any Chaplain before any Ecclesiastical Court, the Diocesan Bishop concerned shall notify the Local Government concerned of his intention so to do, and shall give the fullest consideration to any representation on the subject that may within four weeks of such notification be made to him by the Local Government.

9. Before withdrawing the licence of any Chaplain the Diocesan Bishop concerned shall communicate in confidence in such way as he thinks fit with the head of the Local Government concerned, and shall, if desired, discuss his intention privately with such head.

Of Maintained Churches.

10. The Churches entered for the time being in the Second Schedule to the Indian Church Act shall be maintained and repaired at Government expense, provided that nothing in this rule shall impose any liability on Government to repair any Church when before the passing of the Act such Church was not repaired at Government expense.

11. The Governor General in Council may remove any Church from the list contained in the Second Schedule to the Indian Church Act by agreement with the Bishop of Calcutta or by twelve months' notice expiring with the end of a financial year, provided that such notice shall not be given unless he has notified his intention to do so to the Bishop of Calcutta and allowed him a reasonable opportunity of showing cause against such removal.

12. The Governor General in Council may with the concurrence of the Bishop of Calcutta add any Church to the list, transfer any Church from one subdivision of Part I of the list to another, or replace on the list any Church which has been removed in accordance with Rule 11, and such addition or replacement shall take effect from the beginning of a financial year.

13. The Governor General in Council shall, before the end of March in each year, send to the Bishop of Calcutta a correct list of Maintained Churches for the ensuing financial year.

14. If the Governor General in Council removes a Church from the list for the time being of Maintained Churches, such Church if at that time vested in the Crown shall vest in the Indian Church Trustees, provided that if the Governor General in Council shall so require, the Indian Church Trustees shall hold it upon the trusts following, namely :—

(1) Upon trust to permit the services of the Church of England as contained in any Book of Common Prayer from time to time authorised in England or any of them to be performed in that Church for any congregation which includes members of the Church of England domiciled in the British Isles, (*a*) if a majority of the members of the congregation so domiciled or a majority of the members of the congregation worshipping in that Church in the English language desire such services, and (*b*) if and so long as the congregation is willing to contribute an equitable sum to be determined by the Bishop of the Diocese towards the cost of such services and towards the maintenance and repair of the Church ;

(2) Upon trust to arrange for such services to be held at such times as are convenient to the congregation :

Provided further that if during a period of seven consecutive years, which period may include any period previous to the date of severance, no service has been held in any such Church, such Church shall be held freed and absolved from the trusts (if any) above specified.

15. Subject to the provisions of these Rules the Churches from time to time entered in the list of Maintained Churches shall be available for the services of the Church of England as contained in any Book of Common Prayer from time to time authorised in England.

16. The services mentioned in Rule 15, when performed in a Maintained Church, shall be performed in such manner and according to such rules and by such persons as may be agreed as being in accordance with the practice of the Church of England by the Governor General in Council and the Bishop of Calcutta, or, failing agreement, as may be determined by the Archbishop of Canterbury.

17. Subject to the provision of Rules 15 and 21, a form of service or a form of part of a service authorised in India but not in England may be used in a Maintained Church, if the Chaplain or Minister in Charge of that Church and the Church Committee desire it.

18. (1) Forms of service authorised by the Bishop of Calcutta or the Bishop of the Diocese either (i) for special occasions at the request or with the consent of the Government of India or any Local Government or (ii) for troops at the request of the Commander-in-Chief in India, may be used in Maintained Churches either in addition to the Church of England services or in substitution therefor.

(2) Special Collects for occasions or subjects peculiar to India may, on the appropriate occasions, be either substituted for prayers in the Church of England services or be added to those services.

19. Subject to the provisions of Rule 18, no service or part of a service which is not either contained in any Book of Common Prayer from time to time authorised in England or authorised by the Indian Church shall be used in a consecrated Maintained Church except when the Church is lent to some other Church or denomination.

20. No sacrament, rite, ceremony, solemnisation of marriage, service or religious ministration of any kind purporting to be a sacrament, rite, ceremony, solemnisation, service or religious ministration of the Indian Church shall be administered or performed in any Maintained Church except in conformity with the rules for the time being of the Indian Church.

21. The services of the Church of England shall, in every Maintained Church, have the first claim to the hours of service on every Sunday and Holy Day, and the times at which they shall be held shall be those most convenient to the congregation attending the

Church of England services which are conducted in the English language in that Church. The hours shall be fixed by the Chaplain or Minister in Charge in consultation with the Church Committee, and, in the case of services for troops, the Officer commanding the station.

22. No congregation which at the date of severance had a customary right to worship in a Maintained Church shall be prevented from so doing.

23. The practice or practices followed by the Church of England in India with regard to the marriage of persons in Churches during the 20 years preceding the date of severance, including those relating to the marriage in Church of divorced persons and to marriages between persons within the prohibited degrees, shall continue to be followed in Maintained Churches unless and until they are modified by the Indian Church, but no person whose domicile is outside India shall be debarred by any rule made by the Indian Church from being married in a Maintained Church who would have been entitled to be married in such Church by the rules as followed before the date of severance.

24. The arrangements made for the loan of Churches which have been consecrated for the use of the Church of England which are in force at the date of severance shall be carried out by the Church in India unless varied by mutual consent of the Governor General in Council and the Bishop of Calcutta.

Of Episcopal Supervision and Ministrations.

25. The Indian Church shall provide episcopal supervision for Chaplains and episcopal ministrations for the congregations worshipping in Maintained Churches, and the Governor General in Council shall make such grants as he may think fit to the Church in consideration of such episcopal supervision and ministrations.

Alteration of Rules.

26. If the Bishop of Calcutta refuses to concur in an alteration of these rules proposed by the Governor General in Council, with the sanction of the Secretary of State in Council, as regards the episcopal supervision of Chaplains ministering to troops, the Governor General in Council may, if he thinks fit, require the matter to be referred to arbitration of the Archbishop of Canterbury, or, if he be unwilling to act, some person appointed by him, or, if he fails to make such appointment, a person appointed by the Governor General in Council and the Bishop of Calcutta, and in the case of such reference the decision of the arbitrator shall be final.

Breaches of the Rules.

27.—(1) if it shall appear to a Local Government that any officer of the Indian Church has committed a breach of these rules, it shall report the same to the Bishop, who shall take such steps as he thinks fit to ensure their observance, and if a Local Government considers that a Bishop is permitting or himself taking action contrary to these rules, or has failed to ensure observance of the rules, the Local Government may request the Governor General in Council to bring the matter to the notice of the Bishop of Calcutta, who shall thereupon take such steps as he thinks fit to ensure the observance of the rules.

(2) In like manner the Governor General in Council may of his own motion bring any alleged breaches of the rules to the notice of the Bishop of Calcutta, who shall thereupon take such steps as he thinks fit to ensure their observance.

(3) The Governor General in Council, whether acting of his own motion or at the request of a Local Government, shall give the Bishop of Calcutta an opportunity of taking action with regard to such alleged breaches, before he proceeds to act under the next following rule.

28.—(*i*) If after bringing alleged breaches of these rules to the notice of the Bishop of Calcutta, the Governor General in Council shall be of opinion that such breaches continue to be committed, whether with the knowledge of the authorities of the Indian Church or through their default or neglect, or otherwise, or (*ii*) if he shall be of opinion that the Indian Church is so administered that the general intention of these rules is frustrated, and if, in either case, the Bishop of Calcutta differs from the opinion of the Governor General in Council, the matter or matters in question shall, with the sanction of the Secretary of State in Council, be referred to arbitration in the manner provided by Rule 26, and the decision of the arbitrator shall be final.

29. If the arbitrator shall find that a breach of these rules has been and is being committed or that the Indian Church is so administered that the general intention of these rules is frustrated and that the default is such as to justify the Secretary of State in Council in terminating the arrangements with that Church embodied in these rules, then the Governor General in Council, with the sanction of the Secretary of State in Council, after considering any suggestions of the arbitrator for remedying the default, may at his option either at once declare that all the Churches entered at that time in Part I of the Second Schedule to the Act shall at the expiration of twelve months from the date of the arbitrator's award vest in the Crown or such person or persons as the Governor General in Council may appoint for an absolute estate in possession, and such of them as are duly consecrated shall be held in trust for the purposes of the Church of England and shall be freed from any claim by the Indian Church or officials or members

thereof, or give notice to the Bishop of Calcutta that unless action to remedy the default is taken to his satisfaction within twelve months from the date of his notice, the Churches shall, at a date to be fixed by him after the expiry of those twelve months, vest as above provided.

Special Provision for Termination of the Arrangements embodied in these Rules by the Secretary of State.

30. The Governor General in Council, with the sanction of the Secretary of State in Council, may at any time give five years' notice to the Bishop of Calcutta that he intends to terminate the arrangements embodied in these rules, and in that case the Churches included at the date of the notice in Part IA of the Second Schedule to the Act shall vest forthwith on the expiration of the notice in the manner and under the conditions prescribed in Rule 29.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for October 1926.

I. **Character of the season.**—During the early part of the month wet weather prevailed accompanied with general rain throughout the province. In the latter part, the fall was slight. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for the spring crops and their sowings, especially of early varieties, were progressing under favourable conditions. Reaping of autumn paddy was almost over. Weeding of winter paddy still continues.

III. **State of standing crops.**—Effects of weather on standing crops were generally favourable except in the flooded tracts of Midnapore. The recent rain was beneficial to the standing crops in the Eastern Bengal districts, but more rain was needed for winter paddy in some West Bengal districts.

IV. **Prospects and probable outturn.**—The prospects of deep-water paddy were generally satisfactory, and those of transplanted variety were fair. The outturn of sugarcane was estimated at 82 per cent. of the normal.

V. **Damage to standing crops.**—Damage to standing crops by insects was reported from parts of Mymensingh and Tripura State.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Sporadic cases of cattle-disease were, however, reported from nine districts.

VII. **Failure of pasturage and fodder.**—Insufficiency of fodder was reported from parts of Murshidabad and Faridpur districts.

VIII. **Prices of food-grains.**—During the second half of the month the price of common rice of the cheapest quality rose in 6 districts, fell in 7 and remained stationary in the rest of the province. It ranged from 5 seers per rupee at Burdwan, Hooghly, Jalpaiguri, Darjeeling, Rangpur, Pabna, Faridpur and Noakhali, to 7 seers 2 chitaks per rupee at Nadia.

IX. **Condition of agricultural population.**—The condition of agricultural population was reported to be fair on the whole.

RESOLUTION ON THE LAND REVENUE ADMINISTRATION REPORT FOR 1925-26.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 18TH NOVEMBER 1926.

RESOLUTION—No. 11886L.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1925-26.

READ ALSO—

The Land Revenue Administration Reports of the three previous years.

Mr. K. C. De, C.I.E., held charge of the office of the Member of the Board of Revenue from the beginning of the year to the 19th September and again from the 16th November 1925 to the end of the year. During the intervening period when Mr. De was on leave the charge of the office was held by Mr. J. N. Gupta, M.B.E.

There was no serious natural calamity during the year, and generally stated, the condition of the agricultural class was prosperous. This is reflected in an improvement in the percentage of land revenue collection, which increased to 95·46 from a little over 94. at which it was steady for several years previously. Number of sales of entire estates for arrears of land revenue also fell to 711 from 801 and 877 in the previous two years. Certificates for realisation of dues other than road and public works cesses also fell by about 10 per cent. Repayment of land improvement and agricultural loans was also satisfactory though there was no improvement in percentage. Collection of road and public works cess was, however, not so satisfactory as might be expected, but there were fewer certificates filed for realisation of arrears.

The high rates of wages for labour were maintained, and while this benefited the labouring classes and the high prices of food crops benefited the agriculturists, the landless middle-class population suffered. A partial relief was afforded by the fall in the price of cloth, but dearth of employment for intellectual labour continued. Activities in the direction of industrial pursuits—insignificant though most of them still are—are becoming more and more manifest, and Government have read with interest the Board's review of these activities.

The Board observes that the greatest obstacles to the prosperity of the rural area have been malaria and kala-azar, which continue to take a heavy toll in almost all parts of the province, particularly in the districts of west and north Bengal. Co-operative Anti-malarial Societies and local organisations at several places are doing good work, but it is obvious that very much still remains to be done.

The cost of management proper of the estates under direct management gave a percentage of 9·7 on the current demand. Considerable economy has been effected by the substitution of kunangoes in the place of Sub-Deputy Collectors as tahsildars of khasmahals. On the other hand the staff in general had to be given the benefit of the general revision of pay of ministerial and other officers made during the years 1921-22. The figures since 1922 23 show that it is no longer possible to keep the cost within 6 per cent. of collection. During the year 1925-26 the Board was able to

spend only Rs. 79,295 on agricultural, sanitary and miscellaneous improvements. A special additional grant to complete certain urgently needed works was sanctioned with the vote of the Council during the current year, but it is obvious that the total 9½ per cent. grant hitherto prescribed must be raised. The matter is under examination.

The Governor in Council has read with special interest the account of colonisation work in the Sunderbans in paragraphs 24-25 of the Board's report. There is a very wide field of useful work for all departments of Government in these newly reclaimed areas. These colonisation schemes have been helpful in converting even hardened criminals into fairly respectable members of society. In the Bakarganj Sundarbans though the immediate increase in the raiyatwari rent demand was small, survey of a very large area of nearly 12,000 acres was completed under a new system, and it it expected that the revenue would soon increase by about Rs. 83,000. The programme in the 24-Parganas Sunderbans is also being steadily carried on.

In the settled areas the relations between landlord and tenant are reported to have been fairly satisfactory. Where friction arose it was due mainly to the misconduct of under-paid agents of absentee landlords. The commencement or expectation of settlement operations have been disturbing factors in some districts. It is hoped that these will settle down with better feeling when the operations close. The groundless fear that bargadars would be given occupancy right did not subside altogether and led in some cases to these men being deprived of their lands. On the other hand in the Dacca district some Muhammadan cultivators refused to cultivate the lands of Shaha money-lenders on the barga system. These are only temporary causes of friction and are expected not to last long.

The special provisions of the Bengal Tenancy Act for the protection of certain aboriginal tribes were extended during the year to the Mundas, Oraons and Sonthals in the districts of Rajshahi and Bogra. The privilege given to certain landlords to realise arrears of rent from their tenants by certificate procedure under section 158A of the Act appears to have been used with discretion, and there was a fall in the number of such certificates from 83,451 in the previous year to 66,152. In the district of Nadia 379 applications relating to 12,581 tenancies were filed for the conversion of *utbandi* tenancies into ordinary raiyati holdings under the special Act which was passed in 1923. The Governor in Council welcomes the indications that this recent addition to the Statute Book has been working smoothly and successfully.

The thanks of the Governor in Council are due to the Board of Revenue for the careful and efficient administration of the Department.

By order of the Governor in Council.

In addition to the details required on the reverse, clear information should be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charge of the proposed loan, the particular steps which the Municipal Board has taken or has agreed to take to make good the deficiency.	(*a*) With a view to increase the income of water-rate fund the Municipal Commissioners resolved that water rate at 6 per cent. of the annual value of holdings be imposed on all holdings situated within a radius of 500 feet from the nearest stand-pipe or reservoir or other sources of municipal water-supply and at 5 per cent. (instead of 4 per cent. formerly imposed) of the annual value of those holdings situated beyond 500 feet but within a radius of 1,000 feet and at the rate of 3 per cent. of the annual value of those holdings situated beyond 1,000 feet but within a radius of 2,500 feet from the nearest stand-pipe or reservoir or other sources of municipal water-supply for which Government sanction has been obtained.
(*b*) Possible means of income in the revenue of the Municipal Board.	(*b*) The Municipal Commissioners are in contemplation to introduce tax on holdings in place of tax of persons now in vogue and thereby expects a substantial increase in their income from next year.
(*c*) A statement of all outstanding loans as well as the annual charges involved on their account.	(*c*) (1) Loan of Rs. 8,000 was taken on the 28th March 1906 and the full amount was paid up in March 1926 by 40 equal instalments at Rs. 292-7-1 per instalment. (2) Loan of Rs. 5,000 was taken on the 2nd January 1912 out of which twenty-nine instalments at Rs. 182-12-5 were paid up to date leaving a balance of Rs. 1,789-6-10.
(*d*) Any explanation in regard to receipts and expenditure to show the true financial position of the Board when such is otherwise than the ordinary surplus would indicate.	(*d*) The major portion of the surplus now remains under head latrine fund. A sufficient surplus is now expected under water-rate fund after the completion of the scheme, as the fixation of radius from the nearest stand-pipe or reservoir or other sources of municipal water-supply for the imposition of water-rate has been extended from 1,000 feet to 2,500 feet as has been stated in paragraph (*a*). If this loan is granted there would be not difficulty in meeting the charges of repayment of loan out of the income from the water-rate fund.

(11) A relief map of India.
(12) A map of the world on Mollweild's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand map, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography :—

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-guage.
(4) A small collection of typical rocks, in particular, those of the province and India.
(5) A small museum of typical products.
(6) A good standard atlas.
(7) Geographical pictures.
(8) Magic lantern and slides.

(1) The attention of teachers is invited to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Dutt, Head Pandit, Habigunj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Phillip and Son, London, W, and A.K. Johnston, London, and Messrs. Ruddiman, London. Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Phillip and Son is good and up to date; so also are the Geographical wall maps published by Edward Standford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B Chatterjee publishes District Maps; also ordinary and relief maps of the province.

Babu L. M. Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The autograph hand-maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollwide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Horns Hacbette of Paris, Messrs. Holzel of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two or three rupees each.

Map lantern slides and view slides specially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Burlington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

Elementary Mechanics.

The following books are recommended :—

A. N. Sen	...	Elementary Mechanics.
Briggs and Bryan	...	Matriculation Mechanics.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and level.
Simple lever (including brass slotted weight).
Roman steel-yard.
Lecture apparatus for experiment on movements.
George's New Atwood's Machine.
Stop watch.
Glazebrooke s apparatus (to demonstrate movement of a body).
Hick's Ballistic Balance.
Compound Wheel and Axle.
4 Single Brass Pulleys.
2 Triple Brass Pulleys.
Weston Differential Pulleys Blocks (½ ton).
16 feet of Chain at 6d. per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of gramme weights (200 grams to 1 mgr.).
2 Composition-ivory Balls.

NOTE. The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list, specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.

J. A. WOODHEAD,

Secretary to the Government of Bengal.

Report on the administration of the Stamp Department in Bengal during the triennium ending the 31st March 1926.

I am directed to submit for the information of the Government of India the following report on the administration of the Stamp Department in Bengal during the three years ending on 31st March 1926.

Financial results.

3. The receipts which in 1922-23, the last year of the preceding triennium, were Rs. 3,14,86,217, steadily rose during the triennium under review, reaching Rs. 3,24,43,623 in 1923-24, Rs. 3,44,79,285 in 1924-25 and Rs. 3,67,18,643 in 1925-26. During the last year of the triennium the receipts, as reported by the Accountant-General, Bengal, *plus* Rs. 5,79,288 paid to the Calcutta Improvement Trust on account of the excess stamp duty realised under section 82 of the Calcutta Improvement Trust Act, 1911, and Rs. 11,30,000 being the provincial share of the sale proceeds of unified stamps credited to non-postal revenues, amounted to Rs. 3,67,18,643, an increase of Rs. 22,39,358, or 6·5 per cent. as compared with 1924-25 and of Rs. 42,75,020 or 13·1 per cent. as compared with the year 1923-24. The increase occurred both under "Judicial" and "Non-Judicial" stamps.

* * * * * *

A.—Judicial stamps.

6. The sale proceeds of Court-fee stamps (excluding stamps for copies) rose steadily during the past three years. The receipts were Rs. 2,16,73,138 in 1925-26 against Rs. 2,05,44,378 in 1924-25 and Rs. 2,03,74,473 in 1923-24. Compared with 1924-25, there was an increase of Rs. 11,28,760. Of this increase Calcutta alone contributed Rs. 9,86,802. This increase was mainly due to a number of big estates having come under probate or letters of administration. In the mufassal there was a marked increase in the districts of Chittagong (Rs. 64,493), Khulna (Rs. 61,553), the 24-Parganas (Rs. 55,114) and Bogra (Rs. 48,251). In the 24-Parganas and Khulna the increase was due to settlement operations, while in Chittagong and Bogra it is attributed to the institution of a larger number of suits.

The receipts from the sale of stamps for copies rose from Rs. 6,98,343 in 1923-24 to Rs. 7,16,324 in 1924-25 and to Rs. 8,79,187 in 1925-26.

The receipts from the sale of plain papers used with Court-fee labels rose from Rs. 3,33,538 in 1923-24 to Rs. 3,46,802 and Rs. 3,65,484 in the second and the third year of the triennium, respectively.

B.—Non-Judicial stamps.

7. The revenue derived from the sale of "Non-Judicial stamps" during 1925-26 showed an increase of Rs. 9,00,580 or 7 per cent. as compared with 1924-25 and 24·9 per cent. as compared with 1923-24. The increase mainly occurred under the heads of "Impressed stamps" and "Miscellaneous receipts".

8. **Impressed stamps.**—The receipts under this head (the most important item among Non-Judicial stamps) steadily rose in the triennium under review. In the first year, 1923-24, the receipts were Rs. 59,20,260. They rose to Rs. 65,09,233 and Rs. 74,61,168 in the second and third years of the triennium respectively. The increase which was shared by all the districts, except Calcutta, was due to the registration of a larger number of documents. In the Chittagong Division the cessation of the non-co-operation movement contributed to this increase. The decrease in Calcutta was due to a lesser number of documents in the Bengali language having been registered.

9. **Hundis or inland bills-of-exchange.**—The revenue derived from the sale of hundi or bill-of-exchange stamps rose from Rs. 1,82,486 in 1923-24 to Rs. 1,94,761 and Rs. 1,96,364 in 1924-25 and 1925-26 respectively.

10. **Impressed labels or special adhesive stamps.**—The receipts from the sale of these stamps rose from Rs. 29,18,039 in 1923-24 to Rs. 30,27,641 in 1924-25, but fell to Rs. 29,89,115 in the year 1925-26. The sale of these stamps is mainly confined to Calcutta which contributed 99·9 per cent. of the total revenue from this source.

11. **Foreign bill stamps.**—The receipts from these stamps which are sold mainly in Calcutta were Rs. 3,80,494 in 1925-26 against Rs. 3,98,604 and Rs. 2,95,780 in the two preceding years of the triennium, respectively. The large increase in 1924-25, as compared with 1923-24, was due to the increased activity in foreign trade, while the decrease in 1925-26 was due to the comparative depression of trade.

12. **Share transfer stamps.**—The sale of these stamps, which are used for payment of stamp duty on transfer of shares of public limited companies, is practically confined to Calcutta. The receipts rose from Rs. 4,78,361 in 1923-24 to Rs. 7,88,999 in 1924-25, but fell to Rs. 5,11,148 in 1925-26. The large increase of Rs. 3,10,638 in 1924-25 was due to the trade boom in Calcutta during that year.

13. **Stamps for legal practitioner's license.**—The receipts from the sale of these stamps steadily rose from Rs. 1,55,084 in 1923-24 to Rs. 1,64,365 and Rs. 2,10,741 in the second and third years of the triennium.

14. **Notarial stamps.**—The receipts from the sale of these stamps amounted to Rs. 7,003 in 1925-26 against 7,663 and 7,833 in the two preceding years.

15. **Forms for agreements and contracts chargeable with 2-anna coloured impressions.**—The revenue from this source, which is confined to Calcutta only, rose from Rs. 5,499 in 1923-24 to Rs. 12,799 and Rs. 12,693 in the years 1924-25 and 1925-26, respectively.

16. **Forms for cheques and receipts.**—The sale of these forms which are stamped with 1-anna coloured impressions fell from Rs. 3,26,641 in 1923-24 to Rs. 3,16,891 and Rs. 3,06,396 in 1924-25 and 1925-26, respectively. Of the total revenue for 1925-26, Calcutta contributed Rs. 3,02,101 or 98·6 per cent. The decrease was due to trade depression.

17. **Miscellaneous receipts.**—The receipts under this head are mainly composed of realisations under sections 8 and 35 and sections 32, 37, 40 and 41 of the Stamp Act. The receipts rose from Rs. 2,49,612 in 1923-24 to Rs. 3,40,083 in 1924-25 and to Rs. 5,86,497 in 1925-26. Of the total receipts for 1925-26 Calcutta contributed Rs. 5,26,464 or 90 per cent. The increase in 1925-26 as compared with 1924-25 was Rs. 2,46,414, of which Calcutta contributed Rs. 2,34,112. The increase in Calcutta was mainly due to the floatation of big loans by the Calcutta Improvement Trust, the Calcutta Corporation and the Port Commissioners.

18. **Arrangement for sale of stamps.** * * * * * The total number of vendors engaged in the sale of stamps during the year 1925-26 was 5,439 against 5,324 and 5,379 in the two preceding years. The discount paid to the vendors in 1925-26 was Rs. 4,78,593 against Rs. 4,37,610 in 1924-25 and Rs. 4,34,367 in 1923-24.

19. **Punitive action of the Courts and Revenue Officers.**— * * * * The total number of cases dealt with by the Civil Courts increased from 1,418 in 1923-24 to 1,524 in 1924-25, while the number decreased to 1,309 in 1925-26. The duty and penalty realised by the Civil Courts, however, increased from Rs. 12,074 in 1923-24 to Rs. 13,602 in 1924-25 and Rs. 14,488 in 1925-26. There was also an increase in the number of cases dealt with by Revenue Officers, being 4,750 in 1925-26 against 4,217 and 4,498 in the two preceding years of the triennium. The amount realised in these cases was Rs. 97,308 in 1925-26 against Rs. 55,886 and Rs. 74,565 in the two preceding years respectively.

20. * * * * * * * * * * * * * * The number of cases instituted in 1925-26 was 253 and the number of persons brought to trial was 98, against 201 and 32 respectively in 1924-25 and 251 and 87 in 1923-24. Compared with the year 1924-25, the number of prosecutions shows an increase of 52. In Calcutta there were 71 cases in 1925-26 against 3 in 1924-25. The amount of fines imposed in Calcutta was Rs. 752 in 1925-26 against Rs. 54 in 1924-25 and Rs. 585 in 1923-24. In Bakarganj the number of cases instituted was 166 against 172 in 1924-25, of which three only were brought to trial and all of them were acquitted. The total fines imposed during the year 1925-26 was Rs. 1,063, against Rs. 404 in the year 1924-25 and Rs. 984 in 1923-24. The amount paid in rewards was Rs. 441 against Rs. 45 in 1924-25 and Rs. 528 in 1923-24. No rewards were paid outside Calcutta.

21. **Working of section 19H added to the Court-fees Act, VII of 1870, by Act XI of 1899.**— * * * * * * * * * The number of cases pending at the beginning of the year 1925-26 was 395 against 457 and 590 in the second and first years of the triennium, respectively. The number of cases reported to the Collectors showed an increase from 1,312 in 1923-24 to 1,331 in 1924-25 and to 1,491 in 1925-26. The number of cases in which enquiries were instituted during the year 1925-26 was 1,704 against 1,645 and 1,752 in 1924-25 and 1923-24, respectively. The number of enquiries completed during the year 1925-26 was 1,371 against 1,304 and 1,370 in the two preceding years. Of the cases reported during the year 1925-26 including those pending at the beginning of the year 72·6 per cent. were completely enquired into, the corresponding percentages in the preceding two years being 73 and 72, respectively. The proportion borne by the deficit duty required to the amount originally realised was 26·1 in 1925-26 and 10·2 and 10·4 in the two preceding years, respectively. There was a marked increase in Calcutta in 1925-26, namely, Rs. 2,08,179 against Rs. 94,575 and Rs. 96,802 in the preceding two years, respectively.

RESOLUTION ON THE REPORT ON THE WORKING OF THE ASANSOL MINES BOARD OF HEALTH FOR THE YEAR 1925-26.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

CALCUTTA, THE 19TH NOVEMBER 1926.

RESOLUTION—No. 2209 P.H.

READ—

The Report on the Working of the Asansol Mines Board of Health for the year 1925-26.

THE constitution and personnel of the Board remained unchanged during the year.

Nine ordinary and three special meetings were held during the year. One ordinary meeting failed for want of quorum.

2. The total income of the Board, including an opening balance of Rs. 24,806, amounted to Rs. 1,93,401 during the year. The receipts from cess increased from Rs. 1,39,064 to Rs. 1,64,413 during the year, of which Rs. 1,41,668 was collected from mine-owners and Rs. 22,745 from receivers of royalties. The increase was attributed to the increased raisings of coal during the year 1924, based on the average of the three preceding years, as also to the increased number of road cess assessees and the increase in the amount of road cess assessment. Miscellaneous receipts rose from Rs. 1,456 to Rs. 1,913. The total expenditure amounted to Rs. 1,03,271, leaving a closing balance of Rs. 90,130. This large balance is explained by (*a*) better collection of cess during the year and (*b*) the fact that owing to non-completion of land acquisition proceedings the building programme for the year could not be carried out.

3. A severe outbreak of small-pox threatened the Settlement during the closing months of the year, but it was held in check by wholesale re-vaccination. The total number of cases recorded during the year was 1,129 of which 126 cases proved fatal, as against 202 cases with 28 deaths during the previous year. The number of primary and secondary vaccinations performed during the year was 18,775 and 65,795 as against 16,634 and 16,825, respectively, during the preceding year.

The Settlement was free from malaria, the number of cases and deaths from the disease being much below the average. There was neither any case of plague nor of epidemic dropsy throughout the year. There were altogether 415 cases of cholera with 206 deaths, against 444 seizures with 273 deaths in the previous year. It is satisfactory to note that the spread of the disease was in all cases prevented by the various routine measures of disinfection carried out by the Board's staff, and by the regular administration of the essential oils cholera prophylactic to all house contacts.

The birth-rate increased from 26·02 per mille to 30·20, while there was a satisfactory decrease in the death-rate, which was 16·83 against 18·53 per mille in the preceding year. The total number of births recorded during the year was 9,945 against 8,570 in 1924-25, while the number of recorded deaths decreased from 6,103 to 5,544.

There was a decline in the rate of infantile mortality, which was 120 per thousand of births registered against 138 during the preceding year. The low rate of infantile mortality which continues to compare favourably with that recorded anywhere in India, can safely be attributed to the satisfactory hygienic conditions maintained in the Settlement by the activities of the

Mines Board. It is satisfactory to note that as in the previous year not a single maternal death occurred amongst several hundred deliveries attended by the Board's midwives.

The Board continued to pay attention to such special measures as anti-malarial investigation, improvement of rural water-supply, medical inspection of school children and delivery of weekly lectures by the Sanitary Assistant in primary schools on hygiene and public health, while the midwives of the Board, in addition to their specific duties, paid house to house visits and delivered simple lectures on the general principles of cleanliness and domestic hygiene to women of the Settlement.

The sanitary administration of the Settlement area maintained the same degree of efficiency as in the preceding year. The Governor in Council desires once more to congratulate the Board on the high standard of their administration.

By order of the Governor in Council,

J. G. DRUMMOND,

Secretary to the Government of Bengal.

EXCISE POLICY OF THE GOVERNMENT OF BENGAL.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Excise.

CALCUTTA, THE 27TH NOVEMBER 1926.

RESOLUTION—No. 5568Ex.

In view of the widespread public interest which has been recently evinced with regard to the consumption of alcoholic liquors and drugs, the Government of Bengal consider that the time is ripe for a restatement of their excise policy and for foreshadowing practical lines of advance towards securing more popular control on licensing questions. The present excise policy of Government is based on the Communique, dated 25th August 1921, in which it was clearly stated that the policy of Government was to impose a high taxation of intoxicating articles with a view to making them as dear as possible for the individual consumer and thereby keeping their consumption at a minimum. This policy has been consistently pursued during the last five years.

2. Facilities for the supply of liquor and drugs have been gradually restricted and shop sites have been continually brought under examination in reference to objections of the local people. Complete control over the price of country spirit, hemp drugs and rice beer has been secured, and minimum prices have been fixed for foreign liquor, while administrative arrangements are such that any tendency towards increased consumption can be immediately checked. No changes in rates of duty or license fees, or alterations in administrative arrangements are sanctioned for the purpose of increasing revenue; on the contrary, it is an essential condition that the restriction of consumption should be a basic and inherent feature in any suggested development.

The following measures taken by Government with a view to carrying out their policy of restriction of, and control over, the consumption of alcoholic liquors and drugs may be specifically mentioned :—

(1) Levy of gradually increasing rates of taxation on these articles with adequate and suitable regulations to control prices for the consumer.
(2) Gradual reduction in the number of places of retail vend.
(3) Effective control over the manufacture and wholesale vend.
(4) Regulation and gradual restriction of hours of sale.
(5) Suppression of illicit traffic as much as possible.

Very recently the rate of duty on *ganja* has been increased by nearly 50 per cent. and that on *charas* by nearly 70 per cent.

3. That the measures adopted by Government have proved effective in bringing about a general diminution in the consumption of excisable articles will appear from the statistics given below relating to the consumption of country spirits, *ganja* and opium for the years 1911-12, 1920-21 and 1925-1926 :—

	Country spirit (L. P. gallons).		Ganja (seers).		Opium (seers).	
	Calcutta.	Bengal.	Calcutta.	Bengal.	Calcutta.	Bengal.
1911-12 ...	332,242	796,784	22,422	123,411	21,192	66,729
1920-21 ...	293,965	766,572	12,082	73,625	12,996	42,634
1925-26 ...	182,814	632,351	10,929	71,473	11,545	39,945

4. Statistics of the consumption of foreign liquor (brandy, whisky, beers, etc.) were not maintained previous to the year 1922-23. During the last four years, these statistics have been maintained and are given below in bulk gallons :—

	1922-23.	1923-24.	1924-25.	1925-26.
Foreign spirits ...	229,919	223,207	225,013	223,168
Foreign wines ...	38,354	37,265	37,363	37,767
Foreign beers ...	278,764	233,377	391,717	431,842

It will be seen that although there has been an increase in the consumption of "beers", that of wines and spirits has been kept under adequate control and has not been permitted to increase. The retail sale of *pachwai* (country rice beer) as well as of toddy (fermented juice of palm) has also been brought under increasingly effective control during the last few years.

5. The figures quoted below will indicate clearly that a policy of gradual reduction in the number of places of vend of these articles with due regard to the requirements of moderate consumers has been steadfastly followed in the case of most of these articles, not only by the Licensing Boards in Calcutta and Howrah, but also in other areas in the Presidency. The apparent small increase in the number of foreign liquor licenses ("on" and "off" shops) in 1925-26 was due to a change in the system of licensing of these premises, and not to an actual increase in the number of licensed premises :—

		Figures of number of shops.							
		Country spirit.	Opium.	Ganja.	Bhang	Charas.	F. L.	Tari.	Pachwai.
1911-12	Bengal ...	1,277	1,022	1,434	232	49	273	820	1,374

6. Of late demands have been put forward from various quarters for the adoption of local option and even of total prohibition. Government have given very careful consideration to these questions, and are now in a position to state their views with regard to these suggestions.

7. So far as total prohibition is concerned, it was pointed out in the Communiqué of 1921 that total prohibition of the manufacture, sale and consumption of excisable articles involved an unjustifiable interference with the liberty of individuals, and Government still adhere to that view. Nor can they disregard the fact that the successful enforcement of actual prohibition among the population is a matter which is open to the gravest doubt and in practice the total denial of facilities is sure to lead to an increase of illicit practices as well as other undesirable effects. These considerations were no doubt present in the minds of the members of the Legislative Council in 1921 when a motion urging prohibition was discussed by that body and was rejected. In these circumstances, Government are not prepared to accept total prohibition as the goal of their excise policy.

8. With regard to local option, it may be pointed out that in actual application the principle of local option means nothing less than permissive local prohibition. It involves a direct election on the question of "license" or "no license," or as an alternative, a proposed reduction of licenses. It would be impossible, in the first place, to obtain a really representative and impartial opinion on these questions in the special circumstances obtaining in Bengal, where in rural areas there is only one shop for a large area, say, for a radius of 7 or 8 miles and sometimes more. Abolition of such a shop would mean the total denial of facilities in that area and therefore prohibition. In a referendum to the villagers over such a large area as to whether a particular shop should be abolished, it would be impossible to obtain a really representative and impartial opinion, as most of the villagers would be ignorant or indifferent on such an issue and the vote would be largely influenced either by the prohibitionists on the one hand or by the trade on the other. With regard to municipal areas, the exercise of local

option would in most cases mean nothing more than an alternative between no change and total prohibition, as in most Bengal municipalities there is only one shop of each kind. After careful consideration of the matter in all its bearings, Government are therefore of opinion that in the peculiar circumstances obtaining in this province no practical measure of local option would be feasible.

9. Government are, however, convinced that a definite advance should now be made in the matter of the extension of popular control of licensing, and they have decided to effect this by an extension of the system of licensing boards which have proved successful in the municipal areas of Calcutta, Howrah and Bally. In these municipalities, the licensing boards are *ad hoc* bodies representing various non-official interests and with a non-official majority. They exercise complete control in the matter of the number and location of shops. These licensing boards have been working satisfactorily for a number of years and have effectively represented public opinion in licensing matters. The Governor in Council has decided on an extension of the system of creating excise licensing boards in the Presidency with definite powers to control the number and location of licensed premises and hours of their working. It has accordingly been decided that licensing boards will immediately be constituted in four selected districts in the Presidency, viz., 24-Parganas, Dacca, Chittagong and Rangpur. These boards will have a majority of non-official members and will have on them representatives of the various elected local bodies in each district, viz., municipalities, district boards, local boards, as well as representatives of temperance organisations. It is hoped that, as a result of this experiment, it will be possible to bring about a wide extension of effective popular control of licensing over the greater part of the province if not over the whole of it in the near future.

10. With regard to opium, the Government of India have, in a recent Resolution, dated the 17th June 1926, made a comprehensive survey of the internal opium policy throughout India. The Government of Bengal have taken measures to reduce the excessive consumption of opium in Calcutta and in the neighbouring districts by increasing the price of the drug by Rs. 20 per seer (or nearly 30 per cent.), and if this measure, which has been recently introduced, does not prove sufficiently effective, they will be prepared to take more drastic steps to reduce the excessive consumption of the drug in these areas.

In addition to the steps mentioned above for the reduction of opium consumption in areas where excessive consumption of this drug exists at present, the Government of Bengal have further decided that steps should be taken to collect more accurate information regarding the origin, nature and extent of opium consumption in the province, and with this object in view they have directed that in selected areas the sale of opium will be conducted under arrangements which will permit of the maintenance of a record of the nature of the demand, from its medicinal as well as other aspects.

11. With regard to opium smoking, the ratification by the Government of India of the first Geneva Convention of 1925 places on this Government an obligation to take immediate steps to suppress the smoking of opium at the earliest possible date. The Governor in Council has therefore decided that legislation be undertaken at once to penalise opium smoking by other than registered smokers. It is proposed to compile a register of those who are already addicted to this vice, and after a date to be subsequetnly fixed, no addition to the list of addicts will be permitted, and smoking will therefore be stamped out with the present generation of smokers.

Election Petition.

TO HIS EXCELLENCY THE GOVERNOR-GENERAL OF INDIA, GOVERNMENT HOUSE, SIMLA.

Petitioner.

Pandit Santi Sekhareswar Roy, M.A., son of Raja Sasi Sekhareswar Roy Bahadur, post-office Tahirpur, district Rajshahi, Bengal.

Respondents.

1. The Hon'ble Mr. Kumar Sankar Roy Choudhuri, Teota, district Dacca. (Returned candidate.)
2. Rai Bahadur Keshab Chandra Banerjee, Walter Road, Dacca.
3. Mr. J. Choudhuri, Haripur, Pabna, at present 3, Hastings Street, Calcutta.
4. Raja Mahendra Ranjan Roy Choudhuri, Kakina, police-station Kotwali, post-office Kakina, district Rangpur.
5. Dr. Jatindra Nath Maitra, M.B., Sukdebpur, post-office Khanganj, district Faridpur.
6. Mr. Indubhusan Dutt, Comilla. (Withdrawn.)

May it please your Excellency—

The humble petition of Santi Sekhareswar Roy, M.A., Tahirpur, district Rajshahi, a candidate in the bye-election for the East Bengal Non-Muhammadan Constituency for the Council of State held in July-August 1926, most respectfully sheweth :—

1. That the Hon'ble Mr. Kumar Sankar Roy Choudhuri was declared duly elected as a member of the Council of State on the 16th August 1926, by the Returning Officer, the Commissioner of Dacca.

2. That the aforesaid Hon'ble Mr. Kumar Sankar Roy Choudhuri filed his return of election expenses on 17th September 1926.

3. That your Excellency's humble petitioner, a candidate in the bye-election, by this election petition calls in question the election of the returned candidate the Hon'ble Mr. Kumar Sankar Roy Choudhuri and claims a declaration that your humble petitioner has been duly elected. A sum of one thousand rupees in cash is deposited herewith as security for the costs of the petition.

4. That the nomination of the returned candidate the Hon'ble Mr. Kumar Sankar Roy Choudhuri was improperly accepted by the Returning Officer. The nomination paper of the aforesaid Mr. Kumar Sankar Roy Choudhuri was not duly completed in the form prescribed in Schedule III of the Council of State Electoral Rules. The following entry in his nomination paper in respect of the constituency on the electoral of which the aforesaid Mr. Kumar Sankar Roy Choudhuri is registered as an elector is incorrect : East Bengal Non-Muhammadan Constituency of the Council of State, Dacca district.

5. That the returned candidate the Hon'ble Mr. Kumar Sankar Roy Choudhuri, though a member of the Indian Legislative Assembly at the time, published the following false statement of fact in relation to his candidature in his printed letter sent to the electors and which was also published in the *Forward* newspaper of Calcutta on the 7th July 1926, and other subsequent days : "During the last election, when the late Deshbandhu C. R. Das wanted somebody to keep a seat safe for him in the Legislative Assembly so that he might go there later on, I offered myself temporarily for the seat to which I was elected by the kindness of my constituents and I continued there only because Deshbandhu later on decided to go to the Bengal Council. So long as I was in the Assembly as a representative of the Rajshahi and Chittagong Divisions I looked after the interests of my constituency as best as I could, and it was somewhat due to my interpellations that the traffic surveys of the Pabna-Sadhuganj and the Aricha-Dacca Railways were expedited." He has thereby committed a corrupt practice specified in Part I of Schedule V of the Council of State Electoral Rules.

6. That the Returning Officer improperly accepted the nomination of Rai Bahadur Keshab Chandra Banerjee.

The nomination papers of the aforesaid Rai Bahadur Keshab Chandra Banerjee were not correctly completed in the form prescribed in Schedule III of the Council of State Electoral Rules.

(*a*) The address of the candidate as stated in the nomination papers does not tally with the address printed in the electoral roll.

(*b*) In two of the nomination papers delivered to the Returning Officer on the 10th July 1926, a description of the subdivision of the electoral roll in which the name of the candidate, the proposer and the seconder is entered is not given.

(*c*) The third nomination paper delivered to the Returning Officer on the 16th July 1926 was signed by the proposer and the seconder on a date subsequent to the date on which the candidate Rai Bahadur Keshab Chandra Banerjee is said to have subscribed his assent to the nomination.

7. That your humble petitioner prays that on the grounds stated above the election of the Hon'ble Mr. Kumar Sankar Roy Choudhuri may be declared void and that your humble petitioner to whom the largest number of votes has been given among the candidates validly nominated may be declared elected. And for this act of kindness your Excellency's humble petitioner as in duty bound shall ever pray.

(Sd.) SANTI SEKARESWAR ROY.

The 22nd September 1926.

I, Santi Sekhareswar Roy, the above-named petitioner, do hereby verify that the statements contained in the above petition are true to my knowledge and information which I believe to be true, and I sign this verification at my residence at Kedarghat Benares City, on 22nd September 1926.

(Sd.) SANTI SEKHARESWAR ROY.

The 22nd September 1926.

List under Rule 33 (2) of the Council of State Electoral Rules.

The returned candidate the Hon'ble Mr. Kumar Sankar Roy Choudhuri, Teota, district Dacca, sent on or about the 7th July 1926, from 44 European Asylum Lane, Calcutta, a printed letter to the electors which contains the following false statement of fact in relation to his candidature. The letter was also published in the *Forward* newspaper of Calcutta, on the 7th July 1926, and other subsequent days :—

"During the last election, when the late Deshbandhu C. R. Das wanted somebody to keep a seat safe for him in the Legislative Assembly so that he might go there later on, I offered myself temporarily for the seat to which I was elected by the kindness of my constituents, and I continued there only because Desbbandhu later on decided to go to the Bengal Council. So long as I was in the Assembly as a representative of the Rajshahi and Chittagong Divisions I looked after the interests of my constituency as best as I could and it was somewhat due to my interpellations that the traffic surveys of the Pabna-Sadhuganj and the Aricha-Dacca Railways were expedited."

In the above statement the Hon'ble Mr. Kumar Sankar Roy Choudhuri used expressions signifying that he had ceased to be a member of the Legislative Assembly, though he was as the time a member of the Legislative Assembly representing the Chittagong-Rajshahi Divisions (Non-Muhammadan) Constituency.

The 22nd September 1926.

I, Santi Sekhareswar Roy, the above-named petitioner, do hereby verify that the statements contained in the above list are true to my knowledge and information which I believe to be true, and I sign this verification at my residence at Kedarghat, Benares City, on 22nd September 1926.

RESOLUTION ON THE REPORTS ON THE OPERATION OF THE CALCUTTA IMPROVEMENT TRUST, 1921-22, 1922-23, 1923-24, 1924-25 and 1925-26.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

MUNICIPALITIES.

CALCUTTA, THE 17TH NOVEMBER 1926.

RESOLUTION—No. 3942M.

READ—

The reports on the operation of the Calcutta Improvement Trust, 1921-22, 1922-23, 1923 24, 1924-25 and 1925-26.

1. **General.**—Government (Ministry of Local Self-Government) in 1922 reviewed the work of the Improvement Trust for the triennium ending 1920-21; it is now proposed to review briefly its operations during the succeeding quinquennium. There has been steady progress during this period, although the circumstances, which for so many years past have retarded the operations of the Trust, have not yet ceased to exercise an adverse influence. During the long years of the war, the cost of engineering materials, even when they were obtainable, rose to great heights, while the flotation of loans was impossible. The Trust's investments in Government securities were depreciated, and there was prolonged litigation regarding its rights to acquire surplus lands. The improvement of the outlying areas such as Maniktala was postponed, as doubts were thrown upon the legal capacity of the Trust to undertake schemes outside Calcutta; this delay, though unavoidable, has proved most unfortunate, and the work of the Trust has undoubtedly suffered from its inability in the early years of its existence to prepare Maniktala for the reception of the people displaced from congested areas in Calcutta proper. When building ceased to keep abreast of the demand for accommodation, the Trust was compelled to suspend some of its improvements in order to meet the demand for re-housing schemes which, for the most part, though several experiments were made, have been unpopular with the classes for whom they were designed. With the end of the war came the land boom which ended in September 1920. The Trust was compelled by the force of circumstances to press forward with its programme, so long held in abeyance, at the very moment when land values had soared to their greatest heights, and it is now in the position of having to sell its large holdings of surplus lands when Calcutta is still suffering from the aftermath of unbridled land speculation. For some years the Trust had carried on its work without resort to borrowing, relying for the cost of capital works on the annual surplus of receipts over expenditure. The large balances, however, which were built up from surpluses in the early years of the Trust, have been exhausted, and in recent years the Trust has relied mainly on loans for its capital expenditure and has thus made large inroads on its borrowing capacity. In a later paragraph of this review, the financial position of the Trust will be examined in more detail; it is sufficient to mention at this point that in 1922 the Trust came to the decision that the development of the suburban areas, Cossipore-Chitpore and Maniktala, which have since been incorporated in Calcutta, was no longer financially possible, although on the other hand it was decided that a cautious beginning might be made with the improvement of Barabazar. It will be seen hereafter that Barabazar still presents special problems, while the desirability of presenting Cossipore-Chitpore and Maniktala with a drainage system has again been forced on the attention of the Trust by proposals to modify and expand the drainage system of Calcutta which would provide for these two suburbs the outfall they require.

2. **Improvement schemes.**—During the years under review, the Trust has undertaken several improvement schemes of the first importance. The chief of these was the continuation of the great north and south thoroughfare (Central Avenue) to Chowringhee. The execution of this scheme began when land values were high, and large amounts have been locked up in the acquisition of surplus lands, which at the moment are not readily saleable. Linked up with this important scheme, is the widening of Bentinck Street, which obtains access to Central Avenue through the widened Sooterkins Lane. Bentinck Street for many years had undergone very little change, but the improvement scheme is likely within a short time entirely to transform the character of this locality. The Improvement Trust has also pressed on with its big scheme for linking up Chetla with the Ballygunge Railway Station, and an insanitary and thinly-populated area is being laid out as a suburb, which before long may rival the improved portion of Bhowanipore. Considerable progress has been made with the execution of Park Street and Theatre Road Extension Scheme, and what was formerly a squalid undrained bustee area has now been laid out on a proper plan, with an adequate system of roads, while the needs of the future have been provided for by means of a large open space. This area before long will be linked up with the Ballygunge maidan by a wide road for which a scheme has recently been sanctioned, and with the widening of Ballygunge Circular Road and Gariahat Road a fine circular route will ultimately be provided between the east of Calcutta and the south of Russa Road. As stated above, Barabazar presents problems which the Trust has not yet been able to solve. A scheme was sanctioned by Government for the improvement of a small part of the area measuring roughly 10 acres. Its net cost was estimated at Rs. 30 lakhs, and as the closely built up area known as Barabazar comprises roughly 100 acres, improvement of the whole on a similar scale might cost anything between 2 or 3 crores. Nor do the difficulties end with the provision of this large amount, since a very much larger sum must be invested in the purchase of lands from which recoupment might only slowly be obtained. The Trust, although the first section of its scheme had been worked out in very great detail and finally sanctioned by Government, was compelled to revise its programme and to defer the execution of this project. It may be, as the Trust has been advised, that improvement schemes in Barabazar can be executed at a comparatively small net cost, but the initial expenditure must be so heavy that the Improvement Trust at present cannot contemplate the execution of a series of ordinary improvement schemes of this locality, such as it has carried out with great success in other parts of Calcutta. Government understand indeed that the Trustees have been forced to the conclusion that their operations in Barabazar must be limited to the provision of some main arterial roads, and that even so, some modifications in the law of betterment may be necessary. In this connection it is pertinent to recognise the assistance which the forces of law and order obtained in the recent riots from the existence of Central Avenue. The operations of the military and the police pivoted in an extraordinary degree on this broad thoroughfare and indicated that the construction of one or two north and south and east and west arterial roads through Barabazar proper would afford material assistance to the authorities in the prevention of disturbances.. It is understood that the Improvement Trust is now considering expedients for proceeding with the improvement of Barabazar ; the Governor in Council will be glad to give his most careful consideration to any reasonable proposal which the Board may make for the amendment of the law with the object of overcoming the special difficulties of this problem.

Other notable schemes executed or in progress in the years under review were the following, viz : —

(1) the widening of Park Street, the necessity of which has grown more apparent as the street has been steadily transformed from a residential locality into a shopping thoroughfare ;

(2) the continuation of the Diamond Harbour Road widening which has added enormously to the amenities of a particularly squalid neighbourhood

and has extended the traffic facilities for which the new Kidderpore Bridge provided. The improvements effected in the vicinity of the scheme leave the main portion of insanitary Kidderpore untouched, but are a sufficient indication of the wide field which this neglected area offers to the Trust ;

(3) the widening of Dalhousie Square (West) which now carries a volume of traffic that formerly produced most serious congestion in Old Court House ;

(4) Chitpore Spur : the first instalment of a fine diagonal linking up Central Avenue with the proposed Howrah Bridge Approach Road and thus with Old Court House Street ;

(5) Maniktala Spur : a main road 84 feet in width and about ¾ mile in length leading from the Central Avenue to Upper Circular Road.

This scheme is practically completed, and when the Maniktala Bridge now under construction is ready and Maniktala Road (in Maniktala) is widened, as proposed by the Trust, the spur will furnish an adequate link between Maniktala and the central area of Calcutta. No thoroughfare will contribute more than this to the development of Maniktala as a business and residential area ;

(6) several open spaces have been provided. The Cossipore-Chitpore Park with an area of 225 bighas cost the Trust over fifty lakhs for acquisition ; levelling, filling-up and planting are still in progress. It will ultimately be the maidan of Northern Calcutta. The Ratan Sarkar Garden Street playground in the very heart of Barabazar has proved the value of the smallest open space in a congested area. The Amherst Street Park is under construction, St. James Square has been completed, and the Kalighat Tramways Depôt Square is almost ready for transfer to the Corporation.

Apart from its street scheme, the Trust has been active in its use of section 63 of Act V of 1911 and has aligned a large number of proposed roads. Its main object has been to pave the way for a system of main traffic.

Generally speaking, the planning of subsidiary roads must await the execution of development or improvement schemes. It is clear that the elaborate system of alignments which the Board has planned involves enormous financial commitments, and it is essential that the Board should carefully watch the movements of population and the tendencies to build in different areas, so that steps may be taken to convert an alignment into a street scheme as soon as the acquisition of isolated plots of land becomes uneconomical. The original joint report (drawn up by Mr. Maden, Chief Engineer of the Trust, and Mr. Shrosbree, Chief Valuer) in 1913 proposed a programme involving the construction of 41·81 miles of new and widened roads (including those required for Maniktala). The net cost of the programme was estimated at Rs. 5½ crores. It has since been revised and re-cast, and the long series of alignments which have been prepared and the schemes already executed or under execution show large divergences from the original programme.

By the end of 1925, the Trust had constructed 24·06 miles of new roads and widened 13·52 miles of road. A great many of these roads are subsidiary or development roads with a width of 40 feet, while only 9·58 miles of road 80 feet wide or over have so far been constructed. The Trust programme of alignments provides—in addition to the work already done—for 38·74 miles of roads, of which 6·88 miles are to be 60 feet wide and 25·30 miles to be 80 feet wide or more.

It is roads 60 feet wide or more that count in a modern city, and the programme of 1913 with its total road length of 41·81 miles dealt mainly with arterial roads of this character.

It is clear that the work already executed, important and valuable though it is, constitutes but a small part of the great task committed to the Trust. Yet the capital expenditure of the Trust up-to-date on roads, open spaces and surplus lands amounts to over Rs. 6 crores, against which the only realizable assets are the surplus lands estimated at about Rs. 2¼ crores, which the Trust is now endeavouring to sell.

3. **Finance.**—The Trust has in fact reached a critical stage in its finances. Experience has shown that the income of the Trust is not really

adequate for its gigantic task, but it is not likely to obtain new sources of revenue, and it is therefore necessary to consider how its existing revenues can be most prudently spent. Large inroads have already been made on its borrowing capacity, and there is danger, as the Board itself realizes, in capitalizing its remaining free surplus of income over expenditure, which amounts to about Rs. 13 lakhs. The Board, after meeting loan charges and other recurring expenditure on establishment, rent, taxes, etc., has an annual surplus which is available for capital works If the life of the Board is prolonged, the total amount thus available over a long series of years (say) 40, will evidently be a much larger sum than the Trust could obtain by devoting the whole of that surplus to the service of a loan maturing at the end of that period. The immediate capitalization of its remaining annual surplus by means of a loan with a thirty years' currency would yield under two crores of rupees—a quite insufficient sum for the work which has still to be done.

Judging from past experience, the Trust requires a working capital of at least Rs. 60 lakhs per annum, and the Governor in Council is disposed to think that this result may be achieved, if the Trust can sell its huge holding of surplus lands valued at roughly Rs. 2¼ crores within the next five or six years, using the receipts along with the recurring annual surplus to execute new schemes, and thereby render additional surplus lands available for sale. But if the Trust is to complete its task and tide over difficulties which the heavy rates of interest paid for its loans and the depression of the land market have combined to produce, it must undoubtedly concentrate on the larger schemes, which it alone can undertake and refuse to be diverted from its main objects by the lure of lesser schemes, which attract by their popularity, their promise of recoupment, and their comparative lack of difficulty. It is by the big works that the Trust will be judged—its Central Avenue or its Russa Road—and not the widening of Park Street ; by the Cossipore-Chitpore open space, and not St. James Square ; by the improvement of Maniktala, and not the lay-out of the purlieus of Russa Road.

There is a vast field for the operations of such a body as the Trust in almost every quarter of Calcutta. There is the ever-present danger of forgetting the wood in the contemplation of the trees, and the Governor in Council believes that the measure of success which the Board ultimately attains will depend upon its steady pursuit of a well-considered programme which it refuses to jettison in order to save cheaper wares.

The Governor in Council desires to congratulate Mr. Emerson and Mr. Marr, who held the Chairmanship of the Trust during the period under review, on the steady progress which the Trust has made. As pointed out, the task before the Trust is a heavy one and fraught with many difficulties, but if the finances of the Board are prudently managed there is good reason for believing that the major portion of the big programme which the Trustees have set out to execute will ultimately be carried through.

By order of the Governor in Council,

J. G. DRUMMOND,
Secretary to the Government of Bengal.
